

CIVE 797 - CEE Seminar Series - Spring 2007

	<b>Speaker</b>	<b>Affiliation</b>	<b>Position</b>	<b>Seminar Title</b>
March 8, 2007	Dr. Grace Abou Jaoude	AUB	Research Associate	Static and Dynamic Pile Design Methods
March 15, 2007	Mr. Chadi El Mohtar	Purdue University	PhD Candidate	Pore Fluid Engineering: An Autoadaptive Design for Liquefaction Prevention
March 29, 2007	Dr. Shadi Najjar	Dar Al Handasah (Shair and Partners)		The Importance of Lower-Bound Capacities in Reliability Assessments for Deep Foundations
April 12, 2007	Dr. Mounir Mabsout	CEE Dept, AUB	Professor	Finite Element Research and Applications in Structural and Geotechnical Engineering
April 19, 2007	Dr. Mahmoud Hachem	Wiss, Janney, Elstner Associates, Emeryville, California, USA	Senior Structural Engineer	Response of Circular Reinforced Concrete Bridge Columns Under Multidirectional Earthquake Loading
April 26, 2007	Dr. Ghassan Chehab	Pennsylvania State University	Assistant Professor	Advanced Modeling of Asphalt Mixtures
May 10, 2007	Dr. Bilal Hamad	CEE Dept, AUB	Professor	Evaluation, Repair, and Strengthening of Reinforced Concrete Structures – Case Studies from the Southern Suburb of Beirut
May 17, 2007	Mr. Wissam Slim	RoboBAT Middle East	Manager	RoboBAT A Fully Integrated Structural Analysis and Design Software
May 23, 2007	Professor Jennifer Mckay	University of South Australia		Australian Experience in Internal Negotiations and Consensus Building for Water Rights Uses and Allocations – Lessons for Developing Countries
